

THAT BALL!

The Inaugural Ball Not a Howling Success.

Governor Markham Had the Banquet Door Slammed in His Face

And He Left the Building and the Ball.

Mexico Will Have Dinero or Will Have Blood.

A Couple of Small Blazes This Morning Called Out the Fire Department.

Rush for Places.

SACRAMENTO, Jan. 29.—Murmurs of discontent and remarks more emphatic than elegant were heard today whenever the inaugural ball was mentioned. The management is severely criticised and not without cause.

The guests were not only disappointed but were likewise crushed in feelings and injured in person during the evening. A hungry mob captured most of the good things in sight, and one of them triumphantly slammed the door of the banquet hall in the faces of Markham and his wife and then rushed to the table to consume the remaining oysters.

The trouble commenced when the announcement was made that supper was waiting. The ex-Governor, the Senators and Assemblymen and distinguished guests had all received a quiet tip to remain in the Assembly chamber, whence they would be taken to the board, and special dishes calculated to tickle their palates would be placed before them. They remained, some of them may be there yet, but the summons to the feed never came.

As soon as the doors leading from the ballroom to the banquet hall downstairs were thrown open, the well-dressed crowd poured down the staircase and in a moment all the seats were filled.

Hudd sat at the center table, and though he was surrounded by admirers and hundreds looked down upon him from the second floor, no

one proposed his health. No speeches were made.

Markham was cooling his heels in the marble corridors above, waiting for the summons which never came.

When the doors were again opened once more the banquet hall was stormed. Two ladies were caught in the crush and they fell senseless to the floor. They were laid on the flags, a physician was summoned and as soon as possible they were resuscitated.

The feast went merrily on. Presently the crowd at the doors made another rush. Senator Mahoney, who was with his wife in the front of the jam, was forced through the doors, his wife being left outside. He protested and expostulated, but it was useless, Mahoney could not get out nor his wife in.

The crowd outside once more surged forward and this time they carried the doors before them, and like a lot of thirsty animals rushing for water they tumbled pell mell into the seats at the tables.

Then the waiters refused to serve viands without preliminary tips. They held out the wine and it is alleged sold it by the bottle. It was also said that various persons who made themselves conspicuous had gained admission to the \$50 feast by tipping the men at the door.

After the doors had been returned to their place Markham and his wife walked to the banquet hall. The doorkeeper, for some unaccountable reason, slammed the door in Markham's face. The ex-Governor, flushed with anger and at once left the ball with his wife.

The picturesque features of the banquet were most enjoyed from the second floor. There, around the balustrade of the light, well, hundreds hung, watching the viands. Bets were freely offered as to how many entrees and how many glasses of wine well known men would consume in a given time. Some shouted their prayers to those below to leave something for the hungry who were to come.

Every now and then there was a crash of glass or crockery as an enterprising waiter dropped a dish on the floor. Many elegant dresses received artistic decorations of mayonnaise.

It is said today that the local committee, finding itself in debt on account of the elaborate spread which those who paid for it did not get, will ask the Legislature to pass an appropriation bill to pay for the consumed dainties.

Langenour of Yolo has introduced a bill in the Assembly to prohibit dancing in the Capitol building hereafter. Langenour had an angry gleam in his eye when he spoke of the ball yesterday.

"Why should the whole State building be given up to a ball for four days?" he said. "What good does it do anybody? I am not opposed to dancing, but I am opposed to dancing in the State building, when it can be done just as well at the pa-

vilion. Every State officer was indignant at being compelled to give up the apartments for the purposes of the ball. I am opposed to the whole idea of using the Capitol for the purposes of a ball, and I want to see that bill passed."

Mexico Wants Money.

NEW YORK, Jan. 29.—A special to the *Herald* from the City of Mexico says: The Government still refuses to disclose the tenor of the Guatemalan note. The impression prevails that it has been considered and that Mexico has demanded the instant payment of \$1,800,000 indemnity, which if refused will mean war. Offers of mediation by the United States Government will not be considered, as Guatemala has already settled the question at issue by the treaty of 1882, which she now tries to repudiate.

Guatemala has 5000 troops, with good mounted artillery on the border of the state of Chiapas. The Guatemalans are mortgaging and turning over their coffee estates to Germans and Spaniards, so that in the event of war the President cannot levy forced loans upon them. Barrios owns property in the disputed territory. All the railways and piers on the coast in Guatemala are the property of Americans.

The death of Bethunn, an American, and Murphy, an Irishman, is confirmed. They were murdered and robbed by Guatemalans who crossed the international bounds.

One hundred mules were taken to railroad contractors today. The Government has closed a large contract for the delivery of coal at Vera Cruz and will make a similar contract for delivery at Pacific ports. The wildest rumors prevail, the latest being that President Diaz personally will take the field.

Offers of assistance from States and from private individuals still pour in. President Diaz has received several memorials from Mexican residents in Texas, New Mexico, Arizona and California, offering their services in behalf of their native land when occasion arises.

The transport Oaxaca has arrived on the Pacific coast of Mexico, and has disembarked 400 soldiers with artillery and supplies, belonging to the Twenty-fourth Battalion, and a packet ship landed 160 men of the Fourteenth Battalion of the Mexican army. They will be deployed to cover the Guatemalan frontier about Tepic.

CITY OF MEXICO, Jan. 29.—It is denied emphatically that any foreigners have been offered the command of troops if the war occurs. The army of Mexico now on the border consists of at least 9000 well equipped men, and re-enforcements are hurriedly being sent to the border.

The issuing of patents to land-grant railroads until Congress has taken action for the classification of the lands into mineral, and now mineral has been stopped by the conviction of that body.

Faith Healers Go.

CHICAGO, Jan. 29.—The residents of Edgerton avenue are rejoicing over the downfall of John Alexander Dowie, whose "divine healing home" on that thoroughfare has been an eyesore to them for many months. The little fellow, who claims to be the earthly representative of divinity, is in hard financial straits, and has given up his lease on the premises at 6020 Edgerton avenue, known in Police courts, Morgue and Coroner's office as Divine Healing Home No. 1. It was in this place that some of the worst and saddest cases known in the career of this ministerial fraud were reported.

Yesterday the exodus of faith-healers began. Several large moving vans drew up in front of the place and carted away the furniture paid for by dying people. The removal from the other two homes has not yet commenced. Dowie is frightened and ready to leave town. He knows from experience in other cities that the law is against him, and fears the decision of Justice Prindiville on February 22d. Then, too, the exposure of his methods has frightened away his dupes and his homes have lost all, or nearly all, their patients. The judgment of \$2300 rendered against him in the Superior Court last week, as well as the ordinance passed by the Council last night relating to hospitals, has convinced the unblushing charlatan that it is time to quit.

More Fires.

This morning about 10:30 o'clock a fire broke out in a house belonging to R. W. Good. It was situated on Parker street near Dana. Before the flames could be brought into subjection another house adjoining also belonging to Mr. Good got on fire. One of the houses was two stories, valued at \$1200 and insured for \$900. The other was one story, valued at \$600 and insured for \$300. A piano was destroyed but a great deal of the furniture was saved. The cause was from a fire in a stove from which possibly sparks may have hopped out while Mrs. Good was out in the barn.

Engine Companies Columbia, Dwight way and Peralta responded and did good work in saving goods from the burning buildings. The boys from the High School ran to the fire without any hats on and were of goodly assistance.

Another fire got a little underway about 11 o'clock in Young's place on the corner of Alcatraz and Telegraph avenues. The Lorin Fire Company was on hand and the fire was put out before much damage had been done. Probably \$50 will cover the loss. It is at such times as these that the value of the Fire Department is found out. Will the public kindly remember them when they need a few dollars to get materials to work with?

Interests on Gas Deposits.

A case is in the courts of San Francisco which will determine the right of Gas Companies to demand a deposit from the patrons before gas is finished. These companies have been accustomed for many years to have the use of a very large amount of those deposits and they naturally bring in a great deal of interest money. A man who made a deposit which laid in the Company's hand for several years, now sues for interest upon the money. The decision will be looked forward to with a great deal of interest as the amount involved in various places is considerable. In the meantime it is said that a bill has been introduced into the present Legislature to remedy the matter.

Birthday Dinner.

Last evening Miss Addie Sydnor entertained a number of her most intimate friends from Lorin, Oakland and San Francisco, at her home 1614 Woolsey street, it being the occasion of her eighteenth birthday. At 7:30 o'clock all present sat down to a sumptuous repast. An hour soon slipped past in doing full justice to the many good things prepared for the occasion, after which all repaired to the parlors, which were tastefully decorated. Music, dancing and games, followed by a candy pull, made the evening one long to be remembered. At a late hour good-nights were said, and after wishing Miss Sydnor many happy returns of the day, all departed for their separate homes, after having spent a very enjoyable evening.

Crescent Athletic Club's Exhibition.

The above named local club will give an exhibition in Shattuck hall on the evening of February 21st, for the purpose of obtaining funds for an increase of an outfit for practicing purposes. The program got up for the occasion is a good one and will give the public a chance to see what the athletes of Berkeley can do. The club will be assisted by delegations from the Oakland clubs. The intention is to give a performance well worth the price of admission and let all who attend see the proficiency of home talent.

Rejoicing is being indulged in all over the State on account of the news that the railroad will surely be built right away from San Francisco to Bakersfield and perhaps to Los Angeles, through the San Joaquin valley.

THE INAUGRAL BALL.

It may be very well to have an in-
augural ball everytime a new Gov-
ernor is inaugurated, but it should be
kept entirely free from the State Capitol.
In the first place the business of the
Legislature is demoralized for several
days, as the removal and returning of
desks causes the Legislature to be
adjourned.

We have no objection to the Gov-
ernor being honored by a grand ball
but think that it should be held in
some other place than the State Cap-
itol building, and we are pleased to
learn that a bill has been presented
in the Legislature forbidding in the
future the use of the Capitol building
for balls or entertainments, and hope
that every member of the Legislature
will vote for the bill. It costs a great
deal of money to illuminate the Cap-
itol building, and this the taxpayers
of the State have to foot. There are
many members of the Legislature
who are not the possessors of dress
suits, nor the ready money with which
to pay ten dollars for a ticket of ad-
mission, yet their positions as mem-
bers of the Legislature compel them
to attend, consequently when a cinch
bill, or some other bill with money
behind it, comes up, they are com-
pelled to accept a trifle for their
votes, and the State gets corrupt leg-
islation. Do away with these inaug-
ural balls by all means.

FIRE INSURANCE.

There is quite a flurry among
many of the leading insurance houses
in San Francisco on account of a
break up of the combination which
has been in force nearly all of the
ime for more than a dozen years
past. Rates have already been re-
duced 25 per cent and there are likely
to be still heavier cuts.

It is about time that this combine
should fall through. As long as it
lasted it amounted to almost a pro-
hibition of insurance in a great many
cases. It is all right for the insurance
companies to perform their work
at good compensation prices, but
when it goes above that it
amounts to highway robbery. Parties
can now take advantage of the internal
warfare and get insurance at reason-
ably fair rates.

LONG SESSION.

The members of the Board of
Trustees apparently got very tired
last evening after three hours of dis-
cussion. Putting on their overcoats
an adjournment was rather forced
although there was some quite im-
portant work not touched upon
which was left to go over until next
Monday night. President Acton en-
deavors to push matters along as

fast as possible but the habit of side
talk and informal discussion has got
such a hold upon the members that
it has become chronic and no pre-
siding officer can make headway
against it.

It is to be hoped that the bill now
before the Legislature, in reference
to the construction of an ice plant at
Folsom, will be passed. The State
has, at great expense, built a large
dam at Folsom, where all kinds of
machinery can be run by water pow-
er, and it should be used. Ice is a
commodity that everybody in the
State desires to use, but who are
compelled, owing to the combine of
the ice manufacturers, to do without
it as it comes too high. If the State
owned an ice plant it could supply
the whole State, and the fruit grower
would not then be compelled to pay
as much for the ice in a refrigerator
car as their fruit is worth. The bill
is a good one and should be passed.

The Drain Sewer Swindle.

At the last meeting of the Board of Trustees the wooden drain on University avenue between Third and Fourth streets was reported to be in a bad condition and the Town Marshal was instructed to get an estimate of the cost of putting in a sewer pipe and then filling in the drain.

This job was put up originally for the benefit of property and the town had to pay a good round figure for something which is not the slightest benefit to the town. How such an open faced swindle could have ever been perpetrated is certainly mysterious.

This drain pipe was for the purpose only of draining water from the private property of individuals between Fifth and Third streets. In order to give it the appearance of being down for the town, the gutters on the corner of University avenue and Fourth street have been intentionally diverted from their regular course and turned into Fourth street and from thence into the drain pipe. If the water had been left to take its regular course along the gutter in University avenue it would have been all right and the town would not have been swindled out of thousands of dollars by this now rotten drain sewer.

If the Street Committee would look at this matter two minutes they could easily see the extensive fraud and in what manner the attempt was made to show that it was necessary for the town to have the drain.

If the town spends another dollar on this drain pipe or any connection with it except to fix the gutters at the corner of University avenue and Fourth street so that the surface water will continue in a straight course to the bay, it will be worse

than throwing money into the bay. The town has enough legitimate expenses of its own to take care of without spending it for the benefit of private individuals.

The exhibition will be very interesting particularly to the ladies as it will enable them to prepare every variety of food without a constant reference to the cook book.

The senior class of the University held a meeting yesterday forenoon and elected the following officers, who will have the class day ceremonies in charge: President, George R.
